**Average BTU Saving by installing Maytag Stack Dryers over Dexter Stack Dryers: 38.89%**

\$1,612.40 per month in gas bills with 50% for heating water could provide yearly savings of: **\$3,762.27**

\$1,007.75 per month in electric bills, 20% for dryer motors, could produce yearly savings of: **\$1,813.95**

**Yearly Savings: \$5,576.22**

**Monthly Savings: \$464.68**

**25 Year Life of Equipment Savings: \$139,405.42**

**CONCLUSIONS:**

STACK DRYERS

MAYTAG STACK DRYERS USE FEWER BTUS OF GAS AND SMALLER RATED MOTORS TO REDUCE UTILITY COSTS. THE ENERGY SAVINGS ARE ACCOMPLISHED BY USING A 1/4 HP MOTOR vs 1/2 HP MOTOR, A DUAL INSULATED GLASS DRYER DOOR, DECREASED AIR FLOW SPEED, INCREASED DRYER INSULATION, AND ADVANCED AIR FLOW DRYER TECHNOLOGY. MAYTAG USES A MODERN ENERGY-EFFICIENT DRYER DESIGN WHILE DEXTER WORKS ON IMPROVEMENTS TO THEIR 30 YEAR OLD LEGACY FORMAT. THE NEW MAYTAG DESIGN ALSO PROVIDES STACKS WITH A SMALLER "FOOTPRINT" RESULTING IN STORES WITH MORE CUSTOMER USABLE FLOORSAPCE.

LARGE CAPACITY DRYERS

MAYTAG 75-LB DRYERS CAN BE INSTALLED IN A LAUNDRY WITH A 36" DOOR OPENING. UNLESS YOU WANT TO REMOVE YOUR STORE FRONT GLASS, THIS MODEL IS YOUR ONLY LARGE CAPACITY OPTION. IT ALSO HAS A MUCH LARGER DOOR OPENING, BUT IS OTHERWISE COMPARABLE TO THE FEATURES OF THE 80-LB DEXTER.

LIMITED WARRANTIES

MAYTAG HAS A FIVE YEAR WARRANTY ON ALL PARTS WHILE DEXTER CONTINUES A TWO YEAR WARRANTY AND A FIVE YEAR WARRANTY ON A FEW SELECTED COMPONENTS: EDGE TO MAYTAG ON WARRANTY ISSUE.
