BUYER'S DUE DILIGENCE DISCLOSURE FOR LAUNDROMATS

Laundromats are purchased for a variety of reasons: a desire for business ownership, pride, self-employment opportunities, employment for a relative, estate planning, potential tax benefits, cash flow, and equity gain are examples of these reasons. You should carefully consider your resources and your reasons for making a Laundromat investment. The Laundromat business is an "all cash" business making absolutely accurate verification of income on an existing Laundromat difficult. Income and expense projection on new stores should not be taken as a guarantee of actual performance, but as a reference for comparison of investments.

Laundromat salespersons are not able to provide legal advice, accounting advice, or income guarantees. Use your own judgment and have your own professionals advisors (in addition to LARSEN) to assist you in any decision to purchase a Laundromat. You may want to consider some or all of the following in your analysis:

- **1. Meet the Seller.** The most often used verification of income is the statements of the Seller. A meeting with the Seller will also provide valuable additional information on the current manner of operation.
- **2. Utility Bills.** Review the utility bills. Water bills are frequently used in a variety of formulas to give an indication of income. This method is often accurate to within 5-15% of stated income.
- **3. Books and Records.** The last three years of written records and bank statements of the Seller can assist in income verification.
- **4. Income Tax Records.** The Schedule C income tax forms of the Seller are sometimes withheld, but if afforded the opportunity, request and review them, since few owners over-report income on tax forms.
- **5. Collection Period.** You may feel comfortable requesting a period of joint collection of the coin boxes with the owner. This should not be viewed as a method of income verification.
- **6. Store Site Survey.** Observe business activity at the Laundromat at various times during the week and at different times during the day.
- **7. Competition Observation.** Consider the competition and the potential for additional competition including nearby apartment buildings. Check with city departments for appropriate permits and licenses and local leasing agents for nearby vacant commercial centers or empty lots for potential new store construction.
- **8. Lease Review.** Carefully read the entire lease agreement, addendums, options and all of the provisions. Consult an attorney if you do not understand your rights and obligations.
- **9. Visit the City.** Go to the building department of the city where the Laundromat is located. Request building records, permits, drawings and Certificate of Occupancy to verify their records match the Laundromat records. Check with departments to see if any changes are anticipated for the area of the Laundromat, including development, zoning changes or eminent domain issues.
- **10. Visit the Police Department.** Check with the policing authority to verify any problems or notable crime issues at or near the Laundromat.
- **11**. **Research**. Trade journals, magazine articles, books and websites on the Laundromat business are readily available, and you can use www.Laundromat123.com on the web for education information. National, state, or local organizations of Laundromat owners have a variety of information available, including demographic data for the store location.
- **12. Acknowledgement.** I hereby acknowledge I have read, discussed and understand the above, and accept and agree that the use of information received from a sales agent is to be used at my sole discretion and risk.
